COLLEGE

BOARDER'S PASSPORT

BOARDING AT RATCLIFFE COLLEGE

Boarding is at the heart of Ratcliffe College and reflects our values and ethos. Within the boarding community we seek to create a supportive 'family' setting, developing friendships and relationships with a relaxed, stable and familiar feel for all of our boarders.

Our caring and nurturing environment helps to build confidence within the individual and encourages them to grow new skills whilst stretching and challenging their abilities and expectations. The boarding experience here at Ratcliffe College provides you with the opportunities to turn an interest into a passion and sets your future in motion.

Encouraging **Big-Ideas**

WHAT IS A BOARDER'S PASSPORT?

The Boarders' Passport helps you to balance your life and take part in the full enrichment programme on offer at Ratcliffe College.

You should use this booklet to record your participation and reflect on your own personal development along the way.

You will complete each section with your boarding tutor during your tutorials, they will support you in tracking your participation. These meetings will be a time of reflection and target setting.

The aim is to balance your participation across the following areas:

Physical

Sports and outdoor activities which promote physical fitness and wellbeing.

Service

Activities which encourage active contribution to the college and wider community.

Intellectual

Activities which promote thinking and learning. These include study sessions, guest lectures and university visits.

Spiritual

Activities which contribute to the education of the Spirit of the Gospel.

Cultural

Activities which include music, art, drama, film, literature and philosophy.
